

IMPORTING STUDENTS

Importing students is important because:

- Importing students is a very efficient way of adding and updating several student records simultaneously.
- Imported student records can be edited later if necessary.
- Importing students is more accurate than manual data entry.

Before You Begin Importing Students

Before you begin importing your data, ensure that you:

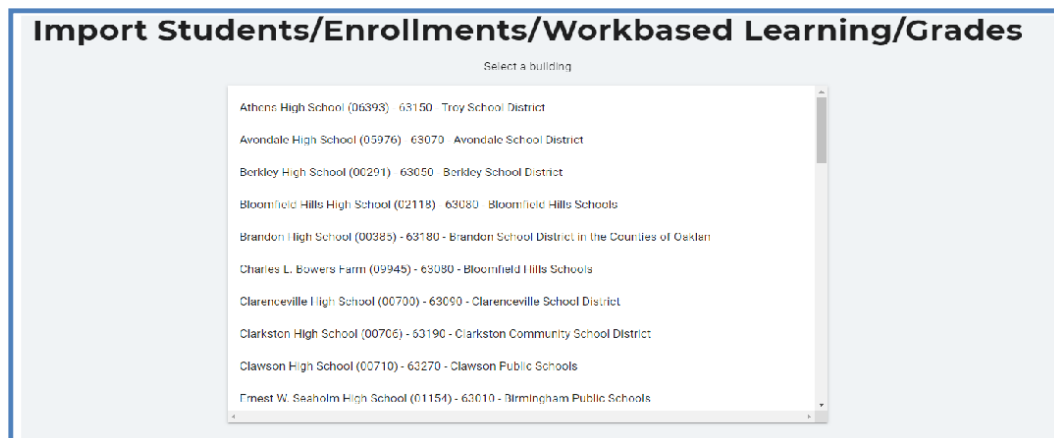

- Identify the data that you need.
- Format the data for easy import.

IMPORT STUDENT DATA

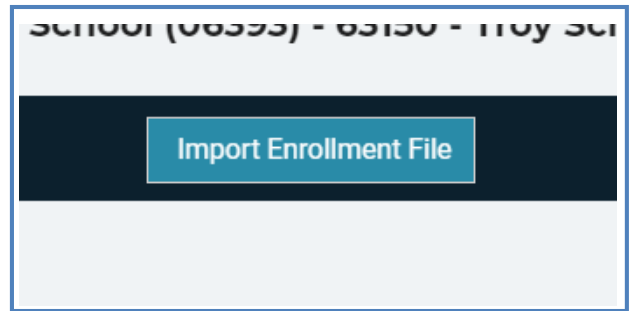

To import data, carry out the following steps:

1. From the navigation menu, click **Data Entry**, then **Student/Course/Enr. Import**.
2. On the **Select building to import** screen, click the building you wish to import records from the list.
3. Beneath the selected building click the Import Enrollment File button to select and upload the import file.

- Review the imported records from the uploaded file. Errors, if any, are displayed in the **Error** column of the temporary grid on the resulting screen.
- To correct any errors, click the Remove File button to reset the screen, adjust your import file, then upload the file again.
- Click the Upload Button to import all error-free student records.

REMOVE FILE EXPORT UPLOAD												
Search <input type="text"/> Total items: 2 Total Students: 2												
RESULT	UIC	FNAME	MI	LNAME	SEX	DOB	SENDDIST	SENDBUILD	PHONE1	PHO		
Update Student	3409530555	Green	u	James	M	11/17/2001	63070	00161	65465	654		
Student Errors found	9999951227	Blue	S	Sally	F	1234	63070	00161	52665	222		
Date of birth invalid												
RESULT	CSC	BEGDATE	ENDDATE									
Enrollment Errors found	back4blood	06/01/2000	9/0/2000									
End date invalid Work based learning invalid												

Clicking the Export button allows you to export the list of import records and their import statuses. This may be useful for offline review and correction.

For further reference, see Student Import File Specifications Guide

STUDENT AND ENROLLMENT VALIDATION

After you load the file containing students and enrollments to import, it will be validated and displayed on the screen. If a student has enrollments, they will be bundled together below the student information.

For students, the first column is the Results column. It will display the result of the validation. It will show Add Student (Green), Update Student (Blue) for valid records or Student Errors Found (Red) if the record failed validation. If errors are found, the next row will list them.

The screenshot shows a validation interface with a dark header containing 'REMOVE FILE', 'EXPORT', and 'UPLOAD' buttons. Below the header, there is a search bar and summary statistics: 'Total Students: 3' and 'Total Enrollments: 2'. A legend indicates 'Add' (green), 'Update' (blue), and 'Error' (red). The main table displays student and enrollment records with the following data:

RESULT	UIC	FNAME	MI	LNAME	SEX	DOB	SENDDIST	SENBUILD
Add Student	3409530535	Telly	u	Purple	M	11/17/2001	63070	00161
Enrollment Errors found		CSC				BEGDATE		ENDDATE
		HSC340-2 DLT				09/02/2021		01/15/2022
Dates invalid								
RESULT	UIC	FNAME	MI	LNAME	SEX	DOB	SENDDIST	SENBUILD
Add Student	9999952427	John	S	Wayne	F	10/09/2005	63070	00161
Enrollment Errors found		CSC				BEGDATE		ENDDATE
		back4blood				06/01/2000		9/0/2000
End date invalid, Work based learning invalid								
RESULT	UIC	FNAME	MI	LNAME	SEX	DOB	SENDDIST	SENBUILD
Update Student	3409530555	Green	u	James	M	11/17/2001	63070	00161

Below the Student, enrollments will be listed if provided. In a similar manner, they will be validated based on the specifications and the result column will indicate: Add Enrollment (green), Update Enrollment (blue), or Enrollment Error Found (Red). If errors are found, the next row will list them.

The errors and their potential resolution are listed below in the **Issue Tables** section.

ISSUE TABLES

Error Level	Error Message	Resolution
Enrollment Import		
Student Core Information Error Messages		
<i>Student</i>	Invalid UIC	First name, last name, birth date, and gender verified with the UIC Master. Must be 10 digits
