

CTEIS User Group Conference Call
Wednesday, March 21, 2012
9:00 – 10:00 am

Notes from Conference Call

1. Roll Call of CEPDs. (See attached)
2. PTD Update
 - **CTEIS Training** – Follow-up and 4483D trainings are going well.
 - **CTEIS Upgrades** – PTD recently released upgrades to CTEIS that increase the functionality and ease of using the system. PTD has also added a number of enhancements to CTEIS in order to make the segments more visible and available, in hopes of reducing segment reporting errors. PTD would appreciate your feedback concerning tweaks and revisions to CTEIS for continuous improvement, and also welcomes ideas for possible reports that would be of value.
 - **MSDS Data** – PTD has received a number of inquiries concerning the question of when an updated MSDS data set will be uploaded into CTEIS. Doug is working with David concerning this issue, and hopes to obtain and upload a new MSDS data set within the next couple weeks. This MSDS update should resolve a number of outdated student data issues in CTEIS, and lessen the need for individual records management.
3. OCTE Update
 - **Segment Issues** – Jacqueline recently attended a 4483D training session and indicated that there are still many challenges concerning assessment data and the problem of students not being correctly identified as completers. There were three main causes that contributed to students not attaining completer status:
 - Students take the assessment; however, because of UIC issues, the assessment data cannot be linked back to the students.
 - Students take all 12 segments of a program, but do not pass **all** 12 segments (with 2.0 or better).
 - Students do not complete all 12 segments.

Doug indicated that often the problem is timing - segment issues are not discovered until too late in the process to fix them. PTD has added a number of enhancements to CTEIS in order to make the segments more visible – in hopes that errors will be spotted and corrected before submission. They have also created a **Completer Assessment Report** which displays students (by building) with their segment information. This report is available to the building reporters, *as well as the Fiscal Agency Authorized Officials and the CEPD Administrators*. It is our hope that making this report available for review by Fiscal Agency Officials and CEPD Administrators may help minimize errors of this nature.

PTD Technology is doing their best to educate CTEIS Reporters concerning accurate reporting of segments. After enrollment data has been entered, CTEIS Reporters are strongly encouraged to have their instructors review the class lists to verify accuracy of enrollment and segment data before the 4483D is submitted.

4. Issues from CTEIS Users

- Steven Billis (in reviewing his Instructional Design Reports) discovered several cases where one or more segments were completely excluded from the instructor's design. Hence, the students taking those programs would not have received credit for all 12 segments. Steven encouraged all CTEIS Users to check their Instructional Design Reports to verify that all 12 segments are accounted for in each program, before submitting the 4483D.
- Sheila Brugger indicated that her Instructional Design Report came up with no segment data displayed. (Call participants indicated that this report is populated once the *validation* is run.)
- Sharon Weidmayer recommended that the ***Program Summary by Student Report*** be organized in *alpha order by student* – and that the current students be grouped separately (listed 1st) from last year's students (listed 2nd). Doug will check into this to see what can be done.

Sharon asked if CTEIS would allow them to establish a sub-section D without using sub-sections A, B, or C. (The instructor wanted to designate sub-section D for only Segment Q students.) Doug checked into this and discovered that the system only requires that subsection A be used – so A and D; or A and C, or A and B, etc., are acceptable.

Sharon discovered some male students incorrectly marked as *non-traditional*. Doug suggested checking the program history to see if these male students had taken another CTE program in the past (that WAS non-traditional for their gender), and the *non-traditional* designation was retained. Sharon will send Doug an email with examples of students, and Doug will check into this.

- Steven Billes asked which year's students were included in the Health Assessment download. Doug will check to be certain, but it should be this year's (2011-12) students. (Steven is attempting to identify the total number of students who need to take the Health Assessment – to order the assessment tests.) Doug recommended using the ***Potentially Eligible for Assessment Report (PEAs)*** for this purpose.
- Jill Kroll indicated that if districts want their BMA (CIP Code 52.0299) and Finance (CIP Code 52.0800) students to be included in the NOCTI download, these students must be entered in CTEIS by **Thursday, March 29, 2012**. This is offered to ensure accuracy in data that we receive back from the vendor, and for convenience availability during the test administration process. Please remember that students can still be entered in the NOCTI system by the district at any time if they desire.
- Dana Mullin indicated that the *Invalid UIC List* does not include enough information to identify what class the student is enrolled in, so that corrections can be made. There is also need for a list of *Return Codes* and their definitions – to assist UIC Resolves in making corrections. Doug will check to see what additional information can be supplied.
- **As Always...** We encourage the CTEIS User Group, as representatives for their CEPD, to share information gleaned from these conference calls with other CTEIS Users in your respective CEPDs. Forwarding the Notes and information received from the conference calls is a good way to keep everyone informed, and may help to reduce problems, concerns, and errors.

Please see the PTD Technology website below for Minutes of past conference calls and additional information.
