

CTEIS User Group Conference Call  
Wednesday, May 23, 2012  
9:00 – 10:00 am

**Notes from Conference Call**

1. Roll Call of CEPDs. (See attached)

2. PTD Update

- **4483D** – Districts are finishing up the 4483Ds; most of them have been submitted. PTD allowed some students to pass through, as their records will be updated when matched with the new MSDS data that should be available very soon. However, uncorrected MSDS records will be excluded from the 61a1 process and the 4301 data processing for federal reporting.
- **Follow-Up** – Districts are being contacted concerning the completion of their follow-up surveys. PTD is checking follow-up data for accuracy as much as possible. Out-of-range wage data is an item that they can easily check (for example: wages of \$400 per hour - or wages of \$.04 per hour).
- **4301** – Districts will be submitting 4301s soon. (Due to OCTE: June 29, 2012) PTD has scheduled 2 training webinars. These are the only live 4301 training opportunities that will be offered, as this report is fairly simple, and not much has changed. PTD will also post a 4301 training video by the end of this week. *New this year – CTEIS will not allow districts to validate or submit a 4301 Report until after the 4483D Report has been submitted.*
- **CTEIS Tweaks** – Summer will be dedicated to making changes and improvements to CTEIS. If you have any ideas for improvement, please submit them to PTD Technology for consideration.

3. OCTE Update

- **Segment Issues** – OCTE has received a number of calls from CTEIS Reporters concerning segment revisions that have impacted the completion status of their students. These calls stem from OCTE's recent revision of segment content - for example, content currently taught in Segment 7 will now be taught in Segment 1.

Although these segment revisions were meant to be implemented in two years (or more) - to allow time for students currently enrolled to complete the program - some districts implemented the revisions right away. Glenna indicated that by using *subsections* in CTEIS, districts should be able separate students in the *old* segments instructional design from students in the *new* segments instructional design - - and attribute the correct segments to these students for reporting purposes - - to avoid jeopardizing their students' completion status.

4. Issues from CTEIS Users

- Jennifer Perry indicated that she has students that have moved from one building to another (with the same CIP Code, but different PSNs), that are not receiving credit for all the segments they have taken (in both buildings) in that CIP Code.

Doug indicated that CTEIS is indeed designed to collect **ALL** segments for a student *within a CIP Code* (regardless of PSN). However, this can only occur after all building-level data has been submitted in CTEIS and processed at the *State level*.

Doug further explained that because data is reported at the **building level**, CTEIS reports (such as the Potential Completers Report) do not have the capacity to include segment data reported by **other buildings** – and therefore, cannot identify students who may be completers across buildings. However, once all building level data has been submitted and processed, CTEIS will consolidate each student's segment records at the **State level** – so that each student receives credit for all segments they have taken within a CIP Code (no matter where they received the instruction), to correctly identify completers.

Jennifer also indicated that student names are appearing multiple times on her Manage Students screen. John Hazen and Doug reviewed these students with Jennifer and found one student to be a duplicate, but each record had its own UIC – these records were merged. The other instance was found to be two very similar students that were actually different students with different UICs.

- Patti Gabos indicated that their programs have changed from trimesters to semesters, which has caused a change in the distribution of segments. This change in segments is having a negative impact on the completion status of 2<sup>nd</sup> year students. Glenna recommended that Patty keep the **old** instructional design students together in one subsection as they pass through, and create another subsection for the **new** instructional design students – and assign the appropriate segments to each subsection.
- Steven Billes indicated that some of his BMMT instructors that attended State training were told that students in pre-requisite classes (8<sup>th</sup> graders) qualified for reporting in CTEIS. Only 9-12 grade students are eligible for reporting in CTEIS – Doug will check with the trainers to make certain that this information is clear.
- Steven Billes indicated that it is increasingly difficult to contact students for Follow-up. Doug indicated that he and Krishnan have been discussing this issue to come up with a state-wide plan. Some of the ideas they've discussed included: Facebook, Twitter, Web-based surveys, and Texting. (Note: districts cannot always access Facebook.)

Janet Hodgson has had success using **Exit Surveys** to collect email addresses and cell phone numbers from students. She also sends an email announcement to notify students of their upcoming call. LeAnne Allen and Beth Mason have had success using Facebook.

Please forward to PTD Technology any other ideas that you have to improve success of contacting students for Follow-up.

- **As Always...** We encourage the CTEIS User Group, as representatives for their CEPD, to share information gleaned from these conference calls with other CTEIS Users in your respective CEPDs. Forwarding the Notes and information received from the conference calls is a good way to keep everyone informed, and may help to reduce problems, concerns, and errors.

**Please see the PTD Technology website below for Minutes of past conference calls and additional information.**
